Kangaroo

Wireless, rechargeable, optical mouse with integrated receiver

Kangaroo, the Notebook mouse, that’s got it! The trick: the USB receiver is stored in a space-saving slot on the bottom side of the mouse and is therefore protected during transport from damage or loss. The special rubber surface on the side places the Kangaroo perfectly in your hand. The mouse is immediately ready for use without any installation. Precise operation is guaranteed with the surface scan optical resolution of 800 dpi and the 3 buttons incl. scroll functionality. The mouse can be easily recharged with batteries or cable.
